Motivation, Experience and Study

As described on the website, we offer an integrated internship program. However, there are 5 focus areas in which our interns will contribute to our work. We would define your tasks and responsibilities based on your preferences, strengths and skills. Please highlight your skills and experience for the type of focus areas you are interested in. Please rank your focus areas in order of preference (1=most preferable to 5=least preferred). Working experience and skills are only required for your first three preferred focus areas.

Skills and experience

Focus area	Ranking	Working/Extracurr. experience	Skills
Communications and Media (Incl. social media)			<i>Type of social media you are familiar with and tangible working experience and achievements.</i>
Digital Design			<i>Include the type of software you are familiar with (e.g. wordpress, video-editing, canva etc)</i>
Event Promotion and Management			
Research and Drafting			<i>Research skills outside of study, extracurr. Can be mentioned.</i>
Partnership Development			<i>E.g. sales, relationship management or fund raising experience.</i>

Please provide a short description of the motivation for your application. What do you hope to get out of this internship? (You can include in what focus areas you are interested, see website for various focus areas)

Study obligations during internship

Please note down below if the background of your studies is related to your studies and what type of obligations you would need to fulfill when you are with the Centre. That can be a thesis for example, or specific courses/classes you still need to follow or a graduation event. Also, please note the obligations to fulfil for Asia Centre, such as reports that will need to be filled out, performance monitoring, meetings with university thesis supervisors etc.

If you will be placed in our internship program, will you have study obligations during that time? If yes, please explain.	
If your internship is an obligation as part of your study, please indicate what types of documents and/or reports Asia Centre would need to contribute to? Eg. (forms to be completed, meetings, etc)
